

NES-CPCI6400

Evaluating technologies,

developing applications ,

before easily porting it to a deployment

Pentium® or PowerPC® CompactPCI based system

- Superior performance and software productivity**
- Wide Choice of Libraries and Software Tools pre installed**
- Cost-effective way to start prototyping**

SPECIFICATIONS

Rack-mountable 2U CompactPCI system
CompactPCI Backplane: 4 slot system slot left
Ventilation front side to side
200 watt power supply ATX
On / off-switch
CompactPCI 6U with 4 slots 80mm I/O socket
3 Front-slot cards: 6U x 160 mm
3 Back-slot cards: 6U x 80 mm
19" mounting brackets
Superior EMC shielding
Hot-dip galvanized steel sheet construction
Fan airflow
Indicator LED

MTBF

PSU: 120,000 hours with 25°C

TEMPERATURE

Operational: 0°C - 45°C

Storage : 0°C - 70°C

Humidity: 90% RH

(non-condensing)
